

# *STREAM*

## Why it matters at Sacred Heart School

The future of your scholars and the skills they will need to be successful over the next century will be dependent upon their academic success in the areas of Science, Technology, Religion, Engineering, the Arts and Math. SHS scholars are being taught new ways to learn. They are learning by doing, learning to be creative and innovative, and they are achieving at a higher rate than we've seen in years.

**S**cience-hands on and project based skill building

**T**echnology-in the classroom and at their fingertips

**R**eligion-Faith filled, morally grounded scholars

**E**ngineering-build from abstract concepts and problem solving skills

**A**rts-Creativity promotes higher achievement

**M**athematics-Universal language for the foundation of success

Choosing Sacred Heart School to educate your scholar instead of a public, charter, independent or another Catholic school, means that you have chosen the first K-8 school in the city of Boston to have infused STREAM throughout the curriculum. By blending inquiry based learning into the curriculum, your scholar will have an educational advantage for life.
